## FULL STACK / FRONTEND / BACKEND DEVELOPER

Junior-level Full Stack Developer with hands-on experience building and deploying production web applications using JavaScript and Python. Strong foundation in RESTful APIs, AWS cloud infrastructure, and third-party integrations. Background in Amazon operations brings disciplined problem-solving and ownership.

## TECHNICAL SKILLS

JavaScript (ES6+), Python, HTML5, CSS3, SQL | React, Tailwind CSS, Responsive Design | Node.js, Express, Flask, FastAPI, REST APIs, JWT | PostgreSQL, SQLite, SQLAlchemy | AWS (EC2, S3, Lambda), Docker, Nginx, GitHub Actions | Zoho CRM API, Microsoft Graph API, OAuth2, Zapier, Git, Linux

## EXPERIENCE

### Full Stack Developer – Republic Financial Services (Jul 2025 – Present)

- Build and deploy Flask and Node.js applications with PostgreSQL on AWS EC2
- Integrate Zoho CRM OAuth2 APIs and automate workflows via Zapier
- Implement secure file uploads using Express.js and AWS S3
- Rebuild SEO-optimized marketing websites using HTML, Tailwind CSS, and JavaScript
- Configure Nginx reverse proxy and SSL for production environments

### Supply Chain Manager – Amazon (Jul 2023 – Jul 2025)

- Led high-volume fulfillment operations and cross-functional teams
- Improved inventory flow and reduced processing time by ~15% through data-driven process improvements

## PROJECTS

**Timeshare Help Center – Deal Submission Platform:** Flask, PostgreSQL, Zoho CRM API, AWS, Docker  
Built internal app for deal processing with OAuth2 CRM integration and secure document uploads

**Solar Exit Partners – Marketing Website:** HTML, Tailwind CSS, JavaScript, Node.js, AWS S3  
Rebuilt multi-page responsive website with SEO optimization and automated CRM workflows

## EDUCATION

React.js Certification – Sabio (2021) | High School Diploma – Phoenix Christian High School
